SAVE INTERNATIONAL
CONSULTANT DIRECTORY

SAVE International is pleased to present its annual Consultant Directory. This is the best place to find a Value Methodology (VM) consultant, and is searchable by company, contact name, location, business type and services provided.

The SAVE Consultant Directory is a paid listing and does not represent a complete list of value professionals. All directory information is available on the SAVE website at www.value-eng.org/consultantdirectory.

Who Is SAVE International?

SAVE International is the premier international professional society devoted to advancing and promoting the Value Methodology. SAVE provides its members with education and training, publications, promotional tools, certification, networking and recognition.

SAVE International focuses on promotion of the Value Methodology and the interests of the professionals who practice it, advocacy of value engineering to corporations and government agencies, certification of competence in the practice of value engineering, and education in the theory, application and benefits of the Value Methodology.

Vision:

Inspiring improvement through the realization of value.

Mission:

Generate excitement and achieve global demand for the Value Methodology by promoting, advocating, certifying and educating.

Company Description

KVP works with owners, managers and other professionals from private industry and government to optimize operational performance, achieve environmental sustainability, increase profitability and lower life cycle costs through value enhanced planning, design, construction and operation of facilities. This is accomplished through value engineering, economic analysis, cost estimating, life cycle cost analysis and the clarification of the essential functions. Multi-disciplinary teams consisting of the facility owner, user, designer, constructor and manager are formed to creatively explore fresh, practical ideas to achieve the best value for the owner or sponsor of the project. These real-time workshops are forums for decision-making, which foster friendly discussions and build team consensus prior to documenting a series of recommendations for management.

Company Description

Since 1998, Synergy Value Solutions, LLC (SVS), a professional Quality and Value Engineering consulting company created and licensed in Washington State, has served both national and international clients in the government and private sectors. SVS utilizes the Value Methodology in conjunction with Quality Improvement techniques, and if applicable, computer-aided problem analysis and evaluation tools, to facilitate high performance multi-disciplined teams in analyzing and improving products, designs, facilities, systems or services, projects schedules and management and business operations. SVS also has a network of associates and affiliates to provide additional, diverse expertise to address specific projects. Bruce Lenzer is the President and co-owner of SVS and serves as its primary consultant. He is a SAVE International Certified Value Specialist-Life (CVS-Life) Engineer, SAVE Fellow, ASQ Certified Manager of Quality/Organizational Excellence, Past-President of SAVE International and serves as the President of the Lawrence D. Miles Value Foundation. Sara Lenzer is Vice President and co-owner of SVS and serves as its primary contract specialist and office manager.
