Dr. Henry M. Morris, Chairman of the Civil Engineering Department at Virginia Polytechnic Institute will deliver the principal speech at the 18th annual meeting of VAS.

A native of Texas and a graduate of Rice University, Dr. Morris, except for three years as a Hydraulics Engineer with the International Boundary and Water Commission, has spent his entire career in teaching.

In 1950 Henry Morris completed his graduate work at the University of Minnesota and was awarded his PhD Degree. He has also taught at Rice University, the University of Minnesota and the University of Southwestern Louisiana where he was Head of Civil Engineering.

Since 1957, Dr. Morris has been Professor of Hydraulic Engineering in addition to being Chairman of the Civil Engineering Department at VPI.

A member of numerous scientific and professional societies, Dr. Morris is a registered Professional Engineer and the author of several books, and many publications on Hydraulics, Engineering Education and Christian Apologetics.

CHIEF OF ENGINEERS TO BE ACSM KEYNOTE SPEAKER

Lieutenant General William F. Cassidy, USA, Chief of Engineers, will deliver the keynote address of the 1966 ACSM-ASP Convention, which will be held at the Washington Hilton Hotel, Washington, D.C., March 6-11, 1966. The subject of General Cassidy's address will be "Challenge of the Next Decade to Surveyors and Mappers."

Colonial Williamsburg, Virginia

... SITE FOR 1966 ANNUAL MEETING

After an absence of a year, the Board of Directors has moved the V.A.S. annual meeting back to Williamsburg. In this historic setting, plans have been completed to insure one of the most outstanding meetings ever held by V.A.S. The Williamsburg Conference Center which opened in the fall of 1963 will be headquarters.

Designed to provide completely equipped meeting rooms and gracious accommodations adjacent to the restored area, this Center will offer all members the most complete facilities in a truly cultural environment.

Virginia's "Historic Triangle"—Jamestown, Williamsburg and Yorktown—offers all members and guests an opportunity for participating in a wide range of unusual activities and programs, plus a chance to stroll through many of the fine shops and craft houses.

Note: Complete program for VAS 18th Annual Meeting appears on Page 6.
The Old Dominion Surveyor

"The Old Dominion Surveyor" is the official publication of the Virginia Association of Surveyors and is published quarterly for the membership and for the betterment of the Surveying profession.

P. Porcher Gregg, President
C. A. Thorpe, Jr., Editor

Address all articles to The Old Dominion Surveyor, P. O. Box 278, Falls Church, Virginia.

This publication is not copyrighted and articles may be reprinted with due credit.

For VAS Membership write Millard G. Smith, Sec.-Treas., P. O. Box 5601, Norfolk, Virginia.

PRESIDENT'S MESSAGE

This last message to you as president is written with many mixed emotions.

The job is most demanding of one's time and thoughts, and there are not many waking hours in the year during which some portion is not devoted to VAS. It is an expanding and growing organization which has come of age and demands the devoted and untiring energies of its leaders. It is a relentless and jealous mistress which cannot be denied. This part I am glad to leave.

However, the job is also most satisfying and the reward can be of great magnitude. The splendid cooperation that I have received from my fellow officers, directors, committees, and all members and affiliates can only be exceeded by the excellent work that has been done and the accomplishments made. The privilege of being the President of this group is an opportunity not granted to one many times, if ever, during a lifetime. For this reason, I regret completing this chapter in my life.

To the new members, I thank you for the confidence that you have in VAS. We welcome you and know that the benefits derived will be mutual.

To the incoming officers, I wish continued growth and success of the Association and pledge my wholehearted support.

Two

Membership Votes "Standards" Requirements

The Membership voted overwhelmingly in favor of the requirement that possession of "Standards of Practice for Professional Land Surveyors in the Commonwealth of Virginia" be made a condition of membership in VAS.

The "Standards" are in the hands of the printer who has promised delivery about January 5, 1966. Committee plans are to begin distribution immediately on receipt and it is believed will be complete prior to the Annual Meeting, January 20th. Distribution will be automatic to all Members in good standing. The books are serially numbered and each book will be registered to the individual member on a file card which will contain complete data as to serial number, payment and dates of issuance, deletions and additions as forwarded. The cost to members will be $10.00, due and payable on receipt of the "Standards". Checks should be sent immediately to the Secretary-Treasurer at Post Office Box 5601, Norfolk, Virginia, 23516, clearly marked as payment for the "Standards".

The Manual Committee urges all Members to read the "Standards" and be prepared to criticize and discuss the book and contents at the Annual Meeting.

16 PASS STATE EXAM IN NOVEMBER

Mr. Cecil J. Cross, Alexandria, Virginia, Chairman of the Land Surveying Section of the Virginia State Board for the Examination and Certification of Architects, Professional Engineers and Land Surveyors, announces that the following persons were certified as Land Surveyors as a result of having passed the examination given at The Hotel Chamberlin, Fort Monroe, Virginia on November 29, and 30, 1965:

Other members of the Land Surveying section of the Board are Messrs. J. Walter Jones, Jr. of South Boston and Frank D. Tarrall, Jr. of Virginia Beach, Virginia.

The Old Dominion Surveyor
BARTENSTEIN ELECTED PRESIDENT VAS AND OUTLINES AIMS FOR VAS IN 1966

As result of the November balloting, the following members of VAS were elected to manage the affairs of the Association for the year 1966.

John H. Bartenstein of Warrenton, Virginia was elected President. A partner of the firm of R. M. Bartenstein & Associates, Jack will bring with him to the Presidency, a wide experience in the field of surveying, coupled with an active part in local civic affairs.

George F. Cook, Jr., will move into the office of Vice President. A native of Arlington County, Cook is well known for his work in the Mount Vernon Chapter where he has held offices of president and Chairman of the Committee on Education.

Kenneth M. Hart was elected to fill the position of Secretary-Treasurer. A member of the firm of Hart & Bell of Mineral, Virginia, Hart will bring to the Board of Directors the views of the surveyor practicing in the rural areas of the Commonwealth.

Millard G. Smith of Norfolk will move into the position of Director, VAS. Well known for his outstanding job as immediate past Secretary-Treasurer, Millard will bring to the Board more than 15 years of experience in private practice.

AIMS FOR '66 . . .

The Virginia Association of Surveyors is a dedicated group of professional people who strive to uphold and elevate the standards of the surveying profession. It is my duty as President to direct the activities of this Association and to promote the practice of surveying.

In my first message to all members of VAS, I wish to express my gratitude for the confidence shown me. I shall do all in my power to maintain the honor and dignity of the surveying profession, and to carry out the purposes of our Association.

Looking ahead in the rapidly changing world, we can easily think of many projects relating to surveying. One of the most important will cost very little but will have a truly far reaching effect on every surveyor in practice today.

I propose to work toward making 1966 the year that the Profession of Land Surveying comes into its own. No longer should we apologize for being a land surveyor but let us be proud of the service which we render to the public. In the past, many of us have been guilty of being afraid of overselling ourselves with the result that we have in effect undersold our profession and the value of our services.

I recall J. K. Finch saying in Our Indebtedness to the Old Surveyor—"All through the ages the surveyor has been not only an essential figure to the program of civilization, the maintenance of property rights and the building of engineering works, but due to the fact that he dealt with careful measurements and facts, he has had a steadying influence on man's efforts to advance".

It is a great privilege to own land and we must impress this on our clients. We must also impress our clients with the responsibility we assume when we certify our findings and descriptions. With the value of land increasing, a surveyor's responsibility must necessarily increase.

I urge each of you to take an active part in this project to truly up-grade our profession. From now on, do not let the public think we are a necessary evil in every land transaction, but let them know we have a professional responsibility to serve them. Each of us has been certified by our peers to serve the public with advice and services as pertaining to the art of surveying. We must start to control our profession—do not let it control us.

During my coming year in office as President of VAS, I expect to push forward additional projects such as the State Manual, a Degree for Surveyors, the reconnaissance with the Virginia Department of Highways, the revising of certain surveying laws, the apprentice training program to name a few.

In the next decade "surveying" will advance beyond our wildest dream with new equipment and new methods. We must be prepared to accept these advances and in so doing, continue to elevate the standards of the profession.

January, 1966
"PROFESSIONAL" LAND SURVEYOR—ACSM
CORPORATE MEMBERSHIP UNDER PSD CRITERIA

The membership of the American Congress on Surveying and Mapping recently gave overwhelming support to a constitutional change which allows its three Divisions—Property Surveys, Mapping and Charting, and Control Surveys—to recommend criteria for "Corporate Membership" in ACSM and in each Division.

This gives the various elements of the Surveying and Mapping Profession the opportunity to establish "professional" standards for voting membership in ACSM. This gives us the opportunity to establish a national Surveying and Mapping Professional Society. Whereas, it is true that ACSM has been operated since its inception by professionals in the Surveying and Mapping elements, the fact remained that anyone with $5 (or just recently $12) could be a voting member.

What should be the voting membership criteria? Should it be simple? Can it be simple? Suppose we just say that anyone can be a voting member who is a licensed Land Surveyor or a licensed Engineer with a surveying background. What happens to persons qualified in those States that do not have Land Surveying licensing? What about qualified persons in Federal or local governments? What about Educators? Thus, it may be that we need to say what constitutes membership qualifications under a basic definition for Land Surveying and under a basic education and experience requirement (it is possible, under this criteria that some licensed Land Surveyors may not qualify since they may not have enough "professional" experience) (it is also possible under this criteria that it could be used as a guide toward uplifting some State licensing requirements). Remember, too, that "we" may say that "we" are professionals IN a "profession" BUT it is the public that has the final decision. Acceptance by the public of a profession includes the profession's advanced training requirements (mental rather than manual) along with experience requirements and its professional ethics.

The opportunity has been provided for the Virginia Association of Surveyors, along with all other State Surveyors (Affiliates and Sections of ACSM) to participate in the establishment of the Property Surveys Division criteria for voting membership in ACSM and in the Division. Representatives have been invited to attend the ACSM Annual Meeting, March 6-11, at the Washington-Hilton Hotel, and express the opinion of their local organization. This could be the most important step toward establishing a voting membership in a national Professional Surveying and Mapping Society that we in the profession may ever have the opportunity to take in our behalf.

VIRGINIA LAND SURVEYORS—are we to be considered "Professionals" IN a Profession OR are we to be considered "professional technicians" UNDER a Profession? The challenge is here. The time is NOW. Let us strongly express ourselves. Virginia has always been a leading, progressive group in national affairs. Plan now to attend the VAS Annual Meeting this month and participate in the discussion so that your VAS representative can express the Virginia position on voting membership in ACSM at the ACSM Annual Meeting in March.

VICTOR H. GHENT,
Past President VAS
Present Secretary PSD-ACSM

GHENT’S PROPOSAL ON ACSM MEMBERSHIP CRITERIA

The following comments on Membership Criteria for PSD have been submitted by Victor H. Ghent to the Committee on Criteria for study. A suggested application form (questionnaire) has also been written to aid the Committee on admissions.

"Any person who, by reason of experience and qualifications, has legally engaged in the practice of Land Surveying and has been in a position of responsible charge at a professional level by reason of such experience and qualifications:

(1) the term "responsible charge" means a position that requires initiative, skill and independent judgment. This term excludes chainmen, rodmen, instrumentmen, transitmen (unless acting as Chief of Party), ordinary draftsmen and others doing routine work.

(2) the term "Practice of Land Surveying" for the purposes of this criteria includes: the practice of that branch of engineering dealing with the location, establishment or retracement of boundary or property lines including the planning of and the subdivisions of land.

(3) the term "legally engaged" means that the person so practicing Land Surveying has done so in accordance
with the licensing laws in the States in which such practice was performed and in accordance with the ethics of the profession.

(4) the term “experience and qualifications” for the purposes of this criteria shall mean that the person has had at least 8 years experience in the practice, at least 4 years of which must have been in a position of responsible charge of such works as boundary surveys, geodetic, cadastral, underground, hydrographic surveys, planning of land areas for development, subdivisions of land areas, including determining existing and proposed ground grades and the existing and proposed drainage of such lands, teaching of such surveying works in a position of at least Associate Professor. In determining experience and qualification experience, each year of progressive education at a college level may be applied up to a total of 5 years.”

**APPLICATION FORM**

</table>

The membership criteria and copy of the ACSM constitution should be sent to each applicant along with the application form.

**CHAPTER NOTES**

**CENTRAL CHAPTER** Well, we did it again. We had another good meeting at the Robinhood Road Holiday Inn on November 4th. Everyone ordered what they wanted and we split the bill. Kinda fancy for a bunch of Surveyors, huh! Well, I think we can credit the curiosity of some of the members as to what was cooking that accounts for a good turnout. We had about sixteen (16) Richmond Chapter members present and a thorough discussion was had on the Surveyor Education theme that is heading for a big shindig in Williamsburg around the 21st and 22nd of January. It was voted by those present to contribute to the Randolph Carter Memorial Fund $100.00 from our treasury. A check will be presented to Mrs. Carter at the annual meeting. Other things (besides all the general bull session) was the upping of the local chapter dues. If this is done, I am sure we will be able to get out more correspondence and be able to afford more interesting meetings.

I was glad to see Ruffin Butler (with the City of Richmond) at the meeting. He is one of us now. Dick Cartwright was in charge of the meeting as our new President. Dick will do a fine job, I am sure.

Our old friend Butterworth from down in Dinwiddie County rejoined our ranks and was responsible for a goodly portion of our entertainment. Everything is shaping up for a bang-up good meeting in Williamsburg in January. Shay Gregg, our able President, seems to have things well under control and I am sure that this will be our biggest and best meeting yet. Will we see you there? Next chapter meeting will be in the Spring.

*John H. Foster*

**MOUNT VERNON CHAPTER** The following officers were elected by the Mount Vernon Chapter to hold office in 1966.

President: Charles B. Shreve, 479 Dranesville Road, Herndon, Virginia.

Vice-President: Fred T. Wilburn, Jr., P. O. Box 428, Fairfax, Virginia.

Secretary-Treasurer: Howard W. Greenstreet, 5929 Old Dominion Drive, McLean, Virginia.

Two-year Director: John W. Coldwell, 122 Hickory Circle, S. W., Vienna, Virginia; Carl W. Hellwig, 5700 Hanover Avenue, Springfield, Virginia.

One-year Director: Wesley N. Ridgeway, 301 West Oak Street, Alexandria, Virginia; Richard W. Long, 4101 Chain Bridge Road, Fairfax, Virginia.

The Mount Vernon Chapter plans to hold its first dinner and business meeting on January 13th at Tom Sarris Orleans House. The agenda for this meeting will include an open discussion on both state and chapter dues, as it is obvious both must be increased to keep pace with the progress of V.A.S. at both levels. At the close of 1965 the membership of the Mount Vernon Chapter stands at 55 active members and 3 affiliate members.

*Charles B. Shreve*
WESTERN CHAPTER  The Fall Meeting of the Western Chapter was held at the Embassy Motor Lodge between Roanoke and Salem on October 23rd. Following the Board of Directors Meeting, the Business Meeting convened at 2:00 P.M. with twelve members present. After hearing the reports of the Officers and Committees, the report of the tellers was received and the chapter officers for the new year announced.

President—Charles E. Kabrich, Rocky Mount; Vice President—Woodrow W. Bedsaul, Lamsburg; Secretary-Treasurer—C. B. Malcolm, Jr., Roanoke; Two-Year Director—E. Staley Clements, Jr., Christiansburg.

C. B. Malcolm, Jr. reported on the VAS Long Range Planning Committee. After much discussion on the suggestion that VAS dues be increased, the chapter approved a resolution expressing opposition to an increase in dues. A Fee Schedule for the Western Chapter was discussed and the Fees and Practice Committee was instructed to prepare a schedule, conforming as close as possible to the consensus of the membership as expressed at this meeting and the meeting last spring.

Joe T. Gollehon of Chilhowie was appointed Public Relations Secretary for the chapter. However, it was pointed out, that since the Western Chapter covers such a large territory, each member should take an active part and report news items occurring in their locality and also see that pertinent news items reach their local paper.

Possible revision of the Constitution and By-Laws of the Western Chapter was discussed. We hope to have a committee working on this this coming year.

We accepted the invitation of Hewlett Hutton and Joe Gollehon to hold our next regular meeting at Marion in April. To give us more time for our meeting we plan to have the Board of Directors meet at 12:00 noon and lunch together.

After a refreshing social hour, the members and guests were served a very fine steak dinner. Gene Robertson made the arrangements for the meeting.

Later that evening Buck Malcolm was good enough to invite us to visit a job he was working on nearby and watch his men take some measurements with his Geodimeter. Several of us were able to accept the invitation and found the experience interesting and instructive.

The Western Chapter is now using the Standard Minvar Tape and we hope to have standard 100 foot lengths established in several localities in our area.

David Dick

NOTE The advance notice of the ACSM-ASP Convention at the Washington Hilton Hotel carried an error concerning date of convention. Correct dates of ACSM-ASP Convention are March 6-11, 1966.

VAS 18TH ANNUAL MEETING
WILLIAMSBURG CONVENTION CENTER
January 20, 21, and 22, 1966

EXHIBITS—Exhibition Hall—Open Thursday, January 20 from 4:30 P.M. to 5:30 P.M. Friday, January 21 from 9:00 A.M. to 4:30 P.M. Saturday, January 22 from 9:00 A.M. to 4:30 P.M.

MEETINGS—Regular Business Sessions to be held in Rooms D, E, F. Place of Day Committee Meetings to be announced.

COCKTAIL PARTIES—President’s Cocktail Party, Thursday, January 20, Plumb-Bob Club Cocktail Party, Friday, January 21 (Everything furnished including midnight snack on Friday). Both parties to be held in Rooms A, B, C.

SATURDAY LUNCHEON—(Stag)—Main Banquet Room
ANNUAL BANQUET—Main Banquet Room
ANNUAL BALL—Main Banquet Room (B.Y.O.L.)

TICKETS—Each person will be furnished with tickets at the time of Registration. NO PERSON will be admitted to any event requiring a ticket unless ticket is presented at time of admission. ALL events with the exception of exhibits and meeting sessions will require a ticket. Badges should be worn at all times by persons with tickets.

COSTS—To be paid at time of registration: $17 for each man, $8 for each lady, and $6 for each child. EVERY PERSON who plans to attend ANY meeting or function MUST register and pay these established registration fees.

PLAT CONTEST—A Plat Contest will be held this year under the following conditions.
1. Type of plats will be subdivisions.
2. They must be submitted to registration desk by 12:00 noon, Friday, January 21.
3. Only one plat for each firm submitted in one name.
4. An award will be made to winner.

ANNUAL MEETING COMMITTEE—Herman Courson, J. Walter Jones, C. A. Thorpe, Jr., Robert L. Downing, Millard G. Smith and P. Porcher Gregg

18TH ANNUAL MEETING
PROGRAM
THURSDAY, January 20, 1966
11:00 A.M.—Registration—Entrance to North Ballroom (Exhibition Hall)
1:08 P.M.—Agenda Meeting—Rooms D, E, F
1:48 P.M.—Opening of Business Session—Rooms D, E, F
