

SURVEYING AND MAPPING SCIENCE PROGRAM

PROFESSIONALS WANTED!

• Multiple Job Offers for Every Student!

The economy is beginning to boom again; claim your rightful place among a proud profession.

• What YOU Can Offer!

Are you good at math? Are you good at trigonometry? Did you ever wonder what you can use all that for?

• Diverse Office Space

Does the idea of sitting in an office day after day bore you? It does us too, so, we choose where we work!

• Own Your Own Company

Work for yourself and become your own boss as a Professional Surveyor!

WHAT DO SURVEYORS DO?

- Property boundary opinions
- Expert witness in a court of law
- Energy resource planning
- Drone/UAV mapping
- Forensic data acquisition
- Archeological surveys
- Construction and infrastructure layout
- Community development

Surveyors utilize many tools and skills to answer those questions, such as computers, drones, GPS, GIS, mapping technologies, and many more. The Bachelor of Science in Surveying and Mapping is designed to prepare YOU to answer them.

QUICK FACT!

The U.S. Bureau of Labor and Statistics projects the need for surveyors to grow by 10% until 2022! Just in time for you to graduate.
