Message from the Board

Dear vtTA Members & Supporters,

Happy New Year! It should be an exciting 2013 for the vtTA as we continue to promote, support, and advocate for Vermont's vibrant technology business sector. This month, the Enhancing Vermont's Software and Information Technology Economy Committee - which included three members from the vtTA - is making its report to the Vermont Legislature. You can find out more about this report by attending the January "Lunch & Learn" session on January 30 (note date change from earlier notice).

The New Year is a good time to become a member of the vtTA, if you're not already. You can join or renew your membership online on the [register tab](#) of vtTA web site. In addition, your company can support vtTA further by becoming a sponsor. Contact Jeff Couture at jeffcouture-vtta@comcast.net for information on sponsorship opportunities.

Jeff Couture

Executive Director, Vermont Technology Alliance

Upcoming Events

Webinar: University of Vermont's Role in Statewide Economic Development with UVM President Sullivan

[Jan. 16, 11 a.m. - 11:30 a.m., Champlain Mill, Winooski]

President Sullivan will discuss the University's four 4 pathways to success and explain how these pathways benefit Vermont with a focus on the business community. He will discuss UVM programs and partnerships that advance the local economy and provide excellent resources for businesses across the state. Finally, he will highlight the impact of UVM alumni on the state economy.

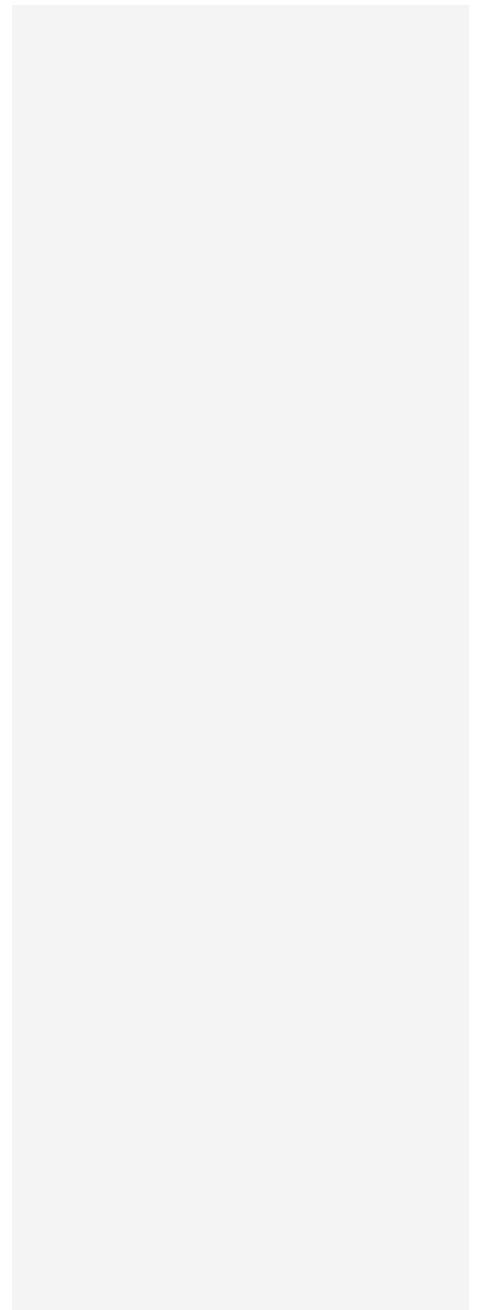

[RSVP for the webinar here.](#)

January Lunch & Learn - Legislative Committee

[Jan. 30, 12 p.m. - 2 p.m., Champlain Mill, Winooski]

The members of vtTA on the committee, formed by the Vermont Legislature, formed to study ways to enhance the state's software and information technology economy will discuss recommendations prepared for the Legislature. Recommendations are in the areas of marketing, financing, education and networking. Please join us in Physician's Computing Company's Maple Conference Room, 20 Cascade Way, 2nd Floor of the Champlain Mill, Winooski.

[RSVP via the VTTA website.](#)

Vermont Tech In the News

General Electric of Rutland Gets \$8 Million Navy Contract

[Jan. 3, Source: VermontBiz.com]

Senator Patrick Leahy (D-VT) Thursday announced that General Electric Aviation of Rutland has been awarded a US Navy contract for \$8,056,982 for the development and production of fighter engines and devices for the EA-18G aircraft. The contract, which is being divided among several regional GE plants, totals more than \$67 million and is a modification to a previously awarded firm-fixed-price contract. GE Rutland receives 12

Vermont Tech Gets \$12 Million to Start Machinist Program

[Dec. 30, Source: Valley News]

Vermont Technical College has received more than \$12 million of in-kind software donations and grant money to start a four-year advanced machinist apprenticeship program. The state's advanced manufacturers say the new program will help meet their growing work force needs.

How Vermont is Executing on its Statewide HIE (Health Information Exchange) Strategy

[Dec. 28, Source: Government Health IT]

Back in 2008, the Vermont state legislature assessed a fee on commercial payers based on reimbursement claims paid on behalf of residents in order to create the Vermont Health IT Fund. With a vision toward improving patient care, the state then awarded grants to be used exclusively for health information technology (HIT) and health information exchange (HIE). The assessment sunsets in 2015, but the state - through those grants - has seen tremendous gains in electronic health record (EHR) adoption and connectivity.

Broadband Key Driver of State Economic and Social Growth, Vermont Ranked 7th

[Dec. 6, Source: VermontBiz.com]

States with high levels of investment in their broadband infrastructure stand a better chance of seeing economic benefits, according to a new study. TechNet, a bipartisan policy and political network of CEOs that promotes the innovation economy, today unveiled its 2012 State Broadband Index assessing state policies and business climate that impact broadband deployment and demand.
