

JOINT VWEA STORMWATER AND NVRAC EVENT: Loudoun County River Bend Stream Restoration Tour Followed By NVRAC Happy Hour at Miller's Ale House

MONDAY, NOVEMBER 9, 2026
STERLING, VIRGINIA

A lunch and learn will be taking place on-site at the River Bend Stream Restoration site behind River Bend Middle School! Michele Seib and Chris Stone will be walking us through The River Bend Stream & Outfall Restoration project that was completed in the fall of 2025.

3:00-4:00 pm	River Bend Stream Tour	River Bend Middle School 46240 Algonkian Parkway Sterling, VA 20165
4:30-6:30 pm	Happy Hour	Miller's Ale House 46280 Potomac Run Plaza Sterling, VA 20164

SPEAKERS:

Michele Seib, PE

Michele Seib is Stormwater Engineering Manager for Loudoun County Virginia. She has 20 years of engineering experience in water resources and stormwater and has worked across the world and across various industries (almost every industry needs a good stormwater engineer!). She currently manages the team who design, implement and maintain all of Loudoun County's stormwater infrastructure (including capital projects like stream restoration). In 2026, the small but mighty stormwater team will have about \$18 million dollars worth of projects in construction. In her spare time, she loves to garden, spend time outside, and volunteer. She has a Bachelor's degree from Penn State in Agricultural and Biological Engineering and Master's degree from the University of Oklahoma in Hydrology and Water Security.

Chris Stone, PG, CFM

Chris is a Professional Geologist and Certified Floodplain Manager. He has a BS from Shippensburg University in Geo-Environmental Studies and an MS in Environmental Science and Public Policy from George Mason University. Chris worked as a consultant for the first 16 years of his career and has worked for Loudoun County for the past 14 years. He is currently serving Loudoun County as the Water Programs Division Manager where he oversees everything related to water in Loudoun County – Stormwater (Maintenance, MS4, Compliance and Capital Projects), Water & Wastewater, Flood Mitigation & Resiliency, Dam Safety and the County's new Groundwater.

"Being part of the Stormwater Program at Loudoun County has been an adventure since day one. Over the years, I've worked with many dedicated individuals to address significant infrastructure challenges and deliver meaningful water quality improvement projects"
