

WASBO welcomes Kristina to our team as Communications and Relations Specialist. She holds a Bachelor of Arts degree in Business Administration and has spent her career to date working in marketing, communications and administration. Working for three years in an executive business coaching association allowed Kristina to hone many of the necessary skills for a career in communications and provided her with business management training. This is where she found her passion for championing others toward success, and her knack for all aspects of communications. Kristina brings event coordination, member service and strategic planning experience to WASBO in addition to her lifelong love of learning.

Kristina enjoys expressing her creativity through cooking. In her free time, Kristina can be found exploring the beautiful Pacific Northwest with her husband and their dog, Dakota. Their favorite spring and summer pastimes include hiking, camping and barbequing with friends and family; and during the rainy months they enjoy heading to the coast for weekend getaways.
