

WASBO welcomes Samantha as our newest team member in the role of Office Assistant. She holds a Bachelor of Arts Degree in Sociology – Human Services from Northern State University and spent the beginning of her career as an Account Service Representative, Scheduling Support, and Receptionist within the medical industry, where her relational skills blossomed. When the opportunity to own and manage a business came up, she jumped at the opportunity for challenge and growth. She and her fiancé spent three years operating their mattress store, where she gained numerous self-taught business operations and management skills. Samantha's focus on customer satisfaction and her keen business acumen are welcome assets to the WASBO team. She is excited to support WASBO members in their professional endeavors.

Originally native to South Dakota, Samantha was instantly captivated by the beautiful landscape of the Pacific Northwest. In her free time, she can be found hiking, camping, picnicking and photographing nature. Learning is one of her passions, and she pursues every opportunity to learn new things. Samantha also enjoys spending time with her family and going on adventures with her fiancé.
