

**Statements of Agreement
Adopted by Representatives Attending
Meetings of the International Education Research Associations
in 2007**

**Statement of Agreement
Unanimously Adopted by Representatives Attending Inaugural International
Education Research Associations Meeting
April 13, 2007**

Representatives of national and international education research associations convened on April 13-14, 2007 resolved to work together toward the development of approaches that would serve to advance education research and address such issues as building capacity and interest in education research, strengthening the articulation of education research policies, and promoting sound use and application of education research world wide through international and reciprocal collaborations.

**Statement of Agreement
Unanimously Adopted by Representatives Attending Second International
Education Research Associations Meeting
September 9, 2007**

Representatives of national and international education research associations convened on September 8-9, 2007 (a) reaffirmed the statement of agreement adopted on April 13, 2007, and (b) resolved in principle to establish a world education research association—with the elements of an organizational framework and constitution to be developed by or before November 2008 and thereafter approved by the constituent associations seeking to become founding members.
