Brief Description:
The Wisconsin Section AWWA “Project of the Year” award is established to promote and recognize excellence in engineering, design, or construction in the Wisconsin drinking water industry. The Project of the Year Award is intended to highlight project teams and the successful alliance between Owner/Engineer/Regulator/Contractor/General Public. This award may be given annually to project teams demonstrating exceptional performance in planning and executing complex engineering or construction projects that meet and exceed public expectations.

Criteria – Project shall demonstrate excellence in one or more of the following:
- Wisconsin Section AWWA membership is required of nominee (Engineer or Owner).
- Demonstrate outstanding drinking water engineering innovation to reduce cost and overall impact of the project and enhance level of service to utility customers.
- Project significantly extended asset service life and/or improved facility performance.
- Integrated a cutting edge technology into design or construction.
- Developed and implemented a successful and innovative community relations and outreach program that aided the successful completion of the project as evidenced by efforts to gather public feedback, address public concerns, enhance project features, and minimize public inconvenience during construction.
- Successfully and effectively address a significant need to protect the environment in the design and during construction.
- Successfully completed the project under adverse conditions including but not limited to: age or condition of the facility, operating conditions and constraints, adverse weather, soil, or other site conditions any of which resulted in unique engineering and construction solutions.
- Project provided enhanced safety to the public and/or water resources.

1. Nominee’s Full Name: ________________________________________________
   Nominee’s Title: ______________________________________________________
   Mailing Address: ______________________________________________________
   Phone Number: ________________________________________________________

2. Entries shall consist of:
   - No more than 5 pages of text narrative providing evidence that the project is deserving of this award and meets one or more of the award criteria.
   - In addition to the award criteria narrative, submittals shall provide:
     o Identity of Owner/Engineer/Contractor.
     o Project cost information.
     o Project performance information.
     o Public participation information, newspaper articles, and other community outreach efforts.
     o Site plan, a floor plan, and other design details that illustrate the project.
     o A minimum of 5 but no more than 8 photographs.
• Self nomination for this award is permitted and encouraged.
• Projects that do not win may be nominated in subsequent years provided the nomination is within two years of project completion.

3. **Citation:** Please provide recommended citation of 50 words or less.
