

CLEAR

Coalition for Learning and Education Assistance Regionally

Regional, small group training sessions for water and wastewater operators tailored to meet the WDNR Certification requirements

The Sessions:

- Flouride and Chlorine: Rules & Regulations, Safety, Equipment, Meters, Field Meters
- Radiochemistry Sampling and Reporting
- SCADA
- Variable Speed Drives
- PSC Reporting, Audit Preparation and GASB Updates
- Metering Issues
- **New for 2012:** Cross-Connection Control, Leak Detection, Building and Facility Maintenance

The Benefits:

- Three Continuing Education Credits for three hours of training
- Small groups of 10-15 certified operators
- Hands-on equipment training and practice
- Idea-sharing and networking opportunities
- Hosted within driving distance of your workplace, with relevant topics
- Budget-friendly (\$20, which includes morning coffee and lunch)
- One phone call to Regional Captain completes registration

Seminars are offered in the Spring and Fall:
