Dear Counselors,

If you were unable to attend the Behavioral Health in the Legal & Justice Systems Conference this past November you have another opportunity to hear this vital information.

The information presented at the conference is essential to your work in representing parents and children within the CPS system. Please consider making this free 7 hour CLE opportunity a priority in your busy schedule. The children and parents of Williamson County need you to have this information.

Thank you for all you do for the citizens we serve in this manner.

Sincerely,
