

Are you an employer hoping to retain your new talent by helping the partner of a recent hire find meaningful employment in western NC?

Are you a job-seeker who has relocated to our area because of your partner's move?

WNC Trailing Partners

...is here to help! We work to find win-win solutions so partners and employers can be successful in our community.

We are an active group of Business Professionals in western North Carolina focused on hiring and retaining great talent from among those moving to our area due to partner relocation. We work to find win-win-win solutions. If you're a trailing partner, this group can offer you advice, connections, and perhaps employment. If you're an employer, the group can help you find great talent or help your recent hire's partner find his or her next career.

Win 1: An employer looking for great talent can find it here by hiring a trailing partner.

Win 2: An employer who hires one half of the partnership can retain their own talent.

Win 3: The partners can have fulfilling and meaningful employment and stay in their newly discovered home in western North Carolina.
