NATIONAL ANNOUNCEMENTS

WIB Seeks National Leadership Chairs

Programming and MAPS (Mentorship, Advisors, Peers and Sponsorship) programming for Women In Bio (WIB) houses several pillars of our mission; educating and engaging with the ultimate goal of advancing opportunities for women in life sciences. In preparation for the transfer to new leadership, we invite qualified WIB members to apply today for the National Programming Vice-Chair and National MAPS Vice-Chair positions today. Our expectation is that the positions be filled in May 2019. If you are interested in either of these vice-chair positions, please review the National Programming and National MAPS profiles as well as information on how to apply, located here.

Member Profile Updates (Social Link) Helpful Hints

On April 15, Women In Bio member profiles (aka "Social Link") was updated with a fresh look and more intuitive ways to connect and stay informed about WIB. Please review the attached helpful hints document, which helps walk you through how to access your profile information, etc. on Social Link. Let us know what you think about this new members-only benefit!

Spring Into STEM with Young Women In Bio

Young Women In Bio presents the Spring Into STEM™ Festival, a series of STEM-focused events across the country and in Montreal for young girls to explore the wide range of educational and career opportunities open to them in STEM. From the first day of spring in March through the beginning of May, participating chapters of YWIB reach out to middle school and high schools girls by hosting a wide range of events and activities, including tours of companies, panel discussions and participation at major STEM Festival. Click here for more details.

Meet Women In Bio at BIO 2019 – Annual Plenary Event and Meet-Ups

Join Women In Bio at the world’s largest global biotechnology partnering event, the BIO International Convention (#BIO2019)! This is the one event where you can access 16,000+ biotechnology professionals from 67 countries, network and set up meetings via BIO One-on-One Partnering™, and attend 150+ education sessions. Discover the next generation of cutting-edge products, therapies, and cures all week long Register today and don’t miss this exciting opportunity to network, and join Women In Bio for two special networking meet-ups during the BIO International Convention.

Adjacent to the Biotechnology Innovation Organization (BIO) International Convention, please join us for our signature annual WIB Plenary Event on Monday, June 3, 2019, at the beautiful Philadelphia Marriott Downtown from 4:00 p.m. to 7:00 p.m.

Our inspirational 2019 Plenary Event “Together we build. Together we lead. Together we inspire.” speakers will highlight their experiences as well as how it takes a community to build, lead and inspire change to advance biotech and create an impact. The event will be moderated by Simone Fishburn, Vice President, Executive Editor BioCentury Inc. and former President of Women In Bio.

As with all Women In Bio events, our 2019 Plenary Event encompasses an inviting and fun environment for networking as it brings together people from all corners of the life sciences industry, and spawns new career and business opportunities.

If interested in becoming a sponsor for this event, please send an email to info@womeninbio.org.

Speakers:
Dr. Aoife Brennan  
CEO, Synlogic, Inc.

Bethany Edwards  
Co-Founder & CEO of Lia Diagnostics

Dr. Sheila Gujrathi  
CEO, Gossamer Bio

Moderator: Simone Fishburn  
VP and Executive Editor, at BioCentury Inc.

WIB-Capital Region: YWIB Kid Museum Event, March 24, 2019 (Event Recap)

KID museum hosted Girl Power Day on March 24th in Bethesda, MD. Volunteers from Young Women In Bio (YWIB) – Capital Region participated in the event as STEM experts to engage in informal sessions with the girls and their families. Young Women In Bio hosted hands-on activities in Neuroscience Section. The activities are (i) muscle spiker activity with electrodes to measure the activity of your muscles in response to movement, (ii) brain hat activity to color different parts of the brain and make a colorful hat to take home and (iii) brain anatomy model. Volunteers from YWIB spearheaded the brain anatomy model activity. Each girl was provided with a disassembled brain model. With the guidance of the volunteer, the girls learned the different parts of the brain and its functions as they build the model. Click here for more details.

YWIB Capital Region Spring into STEM 2019: Biotechnology and Careers in Life Sciences, March 28, 2019, Event Recap

On March 28th, Emergent BioSolutions welcomed about 45 students representing four high schools in the DC metro area to their headquarters in Gaithersburg, MD. Emergent BioSolutions is a global organization that develops, manufactures, and delivers a portfolio of medical countermeasures for biological and chemical threats, existing and emerging infectious diseases, as well as a treatment for opioid overdose. The students participated in an engaging and interactive, 2½-hour educational experience that consisted of a career panel, lab tour, discussion on DNA, and lunch networking opportunity.

WIB-Chicago: MAPS Program! Network to Grow, Grow Your Network

Enhance your professional success through the power of the WIB network! WIB-Chicago members are invited to join our MAPS Group Mentoring Program.

**Mentoring is the number # 1 way to catapult your career.** This structured six-month program is specifically designed to respect the busy schedules of all participants. Mentors are senior leaders in the Biotech Industry. Mentees are anyone who desires to grow their career. Program includes:

- Six monthly mentoring circle meetings
- Six Webinars (Networking, Presentation Skills, Leveraging LinkedIn, Resume Writing, Interviewing Skills, Getting More Visibility)
- Networking event for all mentees and mentors
- Kick-off and Wrap-Up meetings with fellow mentoring circles

For more information, or to register, [click here](#).

WIB-Chicago: YWIB-Chicago Tour of Abbott Molecular Diagnostics

Middle school girls are invited to join the Chicago Chapter of Young Women In Bio to tour Abbott Molecular Diagnostics (AMD). The facility tour includes an overview of Abbott and its Molecular Diagnostics business, a tour of the AMD site, introduction to scientists, and lunch.

During and after the tour, attendees will have an opportunity to ask Abbott scientists and members of Women In Bio questions, and network with other girls interested in careers in science.

WIB-Chicago: Engage in Chicago’s vibrant life science community – call for volunteers!

Do you...

...want to get more engaged with women and your local life science community?
...want to build your professional network and make friends along the way?
...want to help build and shape Women In Bio-Chicago?
...want to add some rewarding volunteer activity to your CV?

Then come and join us! We are looking for volunteers to help out in various committees. Just to name a few, Special Events and Program are looking for help with organizing events, Membership needs some help at the events itself, Communication wants people that engage in outreach and our MAPS committee is eager to kick-off the second round of our mentorship program and needs a helping hand with that.

If anything of that sounds interesting to you, you have a general interest in volunteering for WIB or even if you have other ideas about how you would like to contribute, reach out to us! [Email Rike](#) (our communication chair) for further information.

We can do it alone, but together we can do it better!
WIB-Greater Boston invites girls in middle school to a Young Women In Bio event at Merck Research Laboratories to learn more about careers in biotech and pharmaceutical companies.

Program
3:45 p.m. - 4:15 p.m.: Registration/snacks
4:15 p.m. - 4:45 p.m.: Two scientists give overview of Merck and their career path
4:45 p.m. - 5:15 p.m.: Hands on Experiment
5:15 p.m. - 6:00 p.m.: Informal chat with scientists, pizza and photo. Allowed to take pictures in lobby

WIB-Boston: How to Find, Land and Negotiate your Dream Job

Wondering how hiring managers use LinkedIn profiles to find candidates and how to make yours work better? How to get the job and then negotiate salary and benefits? Or do you just want to get out for some great networking? Then WIB-Boston's next event is for you!

Through an engaging discussion with Human Resource leaders who have successfully helped build biopharma companies with great talent, you’ll learn more about today's talent acquisition landscape and important considerations for new and potential job seekers.

Our panelists will offer insights about the hiring process in their own organizations, as well as strategies for candidates considering new opportunities, including how to prepare for interviews, the importance of your LinkedIn profile, salary negotiations and more.

This is part of our Leadership Ready Program, which combines seminars and mentoring program focused on career development and leadership topics. Women who attend a designated number of sessions and have enrolled in our mentoring (MAPS) program earn a “Leadership Ready” certification from WIB.

Note: We are teaming with a local charity to help with their diaper drive. Please click here for more details.

WIB-Montreal: YWIB Spring Into STEM Festival / Fête du Printemps en STEM

YWIB Montreal in collaboration with Charles River Laboratories (CRL) will be hosting two onsite visits this spring, allowing grade 9 students to participate in scientific activities the morning of April 26th and May 9th. CRL will be setting up presentations and hands on demonstrations within the extensive facility for the students, giving the opportunity for the students to meet some very successful scientists who will be sharing their experiences and successes in their careers.

For more information, click here.

WIB-Montreal: Life Sciences Partnering in the Age of Brexit / Sciences de la vie à l'ère de Brexit

Women In Bio Greater Montreal, BQBC and BCF invite you to the event “Life Sciences partnering in the age of Brexit”. In this panel discussion featuring Lise Hebert, CEO of KLOX Technologies, Laurence Rulleau, Partner at CTi Life Sciences Fund and Amal Khoury, VP Business Development at Knight Therapeutics, speakers will discuss the considerations of partnering in the life sciences industry during the age of Brexit. Panelists will share their experience accessing international markets in sectors such as investment, medical devices and pharmaceuticals. Finally, Julie Lessard, lawyer at BCF will discuss the legal considerations specific to navigating cross-border partnerships between Canada and the UK with a focus on immigration.

Speaker Biographies / Biographies des conférencieres
WIB-Metro New York

WIB-New York: YWIB RockEDU Science Outreach for High School Students

This event takes place in outreach laboratories at Rockefeller University and focuses on The Mechanics and Ethics of DNA Analysis. Students will learn about gel electrophoresis using the Huntington gene model during a hands-on session in the laboratory. They will also participate in a discussion on the implications and ethics of genetic testing.

WIB-Philadelphia: Young Women in Bio Philadelphia hosted a table at the GETT Expo at Phoenixville Area Middle School on March 23, 2019 Event Recap

Girls Exploring Tomorrow’s Technology (GETT) is an annual event in the spring for girls in grades 5-10 and their parents to learn more about career opportunities in a broad scope of STEM-related industries. The day is filled with exciting, enlightening and experiential workshops led by successful women in STEM fields. This year, GETT was attended by 957 students, 315 parents and educators, 73 volunteers, 32 STEM ambassadors, 121 Expo STEM Activities, and 67 organizations.

WIB-Pittsburgh: Together We Build: Community Garden Planting with the Western PA Conservancy

Join Women In Bio for a fun event planting flowers with the Western Pennsylvania Conservancy! Get outdoors and enjoy the spring weather while networking with fellow WIB members and giving back to our community. We will be planting flowers in a community garden located downtown at Point State Park in front of the Wyndham Hotel. Bring good shoes and clothes you can get dirty in! Drinks and snacks will be provided. Women In Bio members may bring one guest for free. Join us to volunteer and make a visible difference in our community.

Space for this event is limited. Please only register if you are committed to attending. The event will be held rain or shine.

WIB-RTP: YWIB Women in STEM event at Apex Friendship High School

The Women in Science and Engineering (WISE) at Apex Friendship High School (AFHS) will host its 4th Annual Women in STEM event on April 25, 2019 from 3:00 p.m. to 5:30 p.m. in the AFHS Media Center. The event will feature a keynote speaker and networking reception. During the networking reception, the high school girls in attendance will have the opportunity to interact with STEM professionals present. YWIB will have a table advertising the science outreach events YWIB organizes and will also assist in networking with the girls in attendance. We are looking for female STEM professionals who are willing to practice networking with students at this event. For more details, click here.

WIB-RTP: YWIB Spring Into STEM 2019

WIB-RTP Young Women In Bio, in coordination with Graduate Women in Science RTP, is excited to be hosting its annual Spring Into STEM event on April 27 for middle school girls. RTP-YWIB held the first ever Spring Into STEM event in 2016, which lead the way for YWIB to create a national festival around Spring Into STEM. Throughout the morning, participants will have the experience to extract their own DNA, learn about design and engineering principles during a hands-on biomedical engineering activity, be introduced to colloid science while making their own slime, and be amazed by the diversity present throughout entomology. Girls will be able to take home their own lab notebook.

The Spring Into Stem Event will be held at North Carolina Central University’s Biomanufacturing Research Institute and Technology Enterprise (BRITE) on April 27, 2019, from 9:00 AM - 12:00 PM.

WIB-RTP: Equitable Organizations: How to Be One, Why You Want to Work for One

It is often easy for companies to wind up looking, acting, and thinking homogeneously. After all, a couple of strong employees may look to others like them to carry on the legacy of success! However, striving for a more equitable approach to hiring, development, retention, and promotions brings an organization new ideas and accelerated, sustainable growth. We will take a look at how to become an equitable organization through the hiring and management of employees with diverse ideas and backgrounds. We will also discuss ways of approaching the topic of becoming an equitable organization so that attendees can be equipped to have open and honest discussions with colleagues as well as bring up the topic to leadership and others.

WIB-RTP: YWIB STEM career exploration with Chapel Hill High School’s FemSTEM club

Young Women In Bio-RTP is partnering with Chapel Hill High School’s FemSTEM club to introduce female students to STEM related careers in a monthly series. Each month invited speakers will share their specific experiences in different STEM fields based on the students’ interests. Speakers will present hands-on activities to introduce their specific fields, introduce what they do in a typical day, and field questions about their careers. Sessions will focus on clinical research, computer science, environmental science, and genetics. A special session will also be held to answer any questions about undergraduate studies and medical school.

WIB-San Francisco: YWIB AVID Mock Career Fair 2019 at Mountain View/Los Altos High School, January 20, 2019, Event Recap

On Jan 30, 2019, Mountain View and Los Altos High School held their annual mock career fair for around 150 junior and senior students in the AVID (Advancement Via Individual Development) program. Three volunteers representing Women In Bio participated in the event.

The AVID program aims to serve highly motivated, under-resourced students, many of whom are immigrants or would be the first generation in their families to go to college. The program provides exposure to students, who don’t have the means otherwise, to see the scope and variety of diversity, skill sets, educational pathways and mindsets needed for today's jobs.

[Photo of students at the career fair]

WIB-San Francisco: YWIB Comparative Anatomy at ViewPoint Therapeutics, April 12, 2019, Event Recap

On April 12, 2019, ViewPoint Therapeutics hosted a small group of five high school students from Capuchino High School. The students were referred by their science teachers as being highly interested and talented in different aspects of science. The event started with a lunch and a series of introductions and Q&As about ViewPoint’s research. Then, the students spent about two and a half hours in the ViewPoint lab facility, dissecting a bovine eye, rabbit eye, and porcine heart. Each student was able to dissect her own tissue with guidance from volunteers at ViewPoint and YWIB. Students identified various parts within the ocular anatomy and compared the sizes of different structures between the rabbit and the bovine eye, and further discussed the differences in visual requirements for each species. Next, students learned how to dissect the porcine heart, identifying the ventricles, atria, valves, and the major artery and vein. The event concluded with an orientation and tour of ViewPoint’s laboratory facility, where the students learned about the different pieces of equipment and how they are used to conduct research.

WIB-Seattle: Seattle Life Science Spotlight: Connections & Career Growth

Seattle is full of opportunity. How do you stay on top of what is happening in our city?

Join Women In Bio-Seattle at Cambia Grove for an afternoon of getting to know your biotechnology community. Network with your peers, share what you are working on, and get to know some of the amazing companies that call Seattle their home.
Featuring both emerging and established life science companies, this event will highlight their latest successes, and provide attendees with open networking opportunities with industry professionals, recruiters, hiring managers, and career service experts.

It's Open Enrollment time for the WIB-Seattle Mentorship, Advisors, Peers and Sponsorship (MAPS) program!

Are you interested in meeting and mentoring being mentored by wonderful women in our community? To sign up for the first time or to re-enroll (all current MAPS members must re-enroll to keep your spot in a MAPS group for the coming year), please fill out the [2019-2020 Enrollment Questionnaire] by Tuesday, April 30, 2019. Your group assignment will be emailed to you by the end of May, along with some materials to get you started.

Current MAPS members: Please note that re-enrollment is required, even if your availability is the same and you are planning to stay in your current group.

New this year, we are offering interest-based groups in South Lake Union and Bellevue/Redmond in addition to our location-based groups. If you've been waiting for an interest-based group, now is a great time to join!

Want additional leadership opportunities and training? Consider becoming a MAPS group leader.

Open enrollment occurs only once per year, so don't miss your chance to join a MAPS group! The open enrollment period ends on April 30, 2019. After that, we will only add people to existing groups as space becomes available. Please note that enrollment in MAPS is a WIB member-only benefit, so your membership must be up to date to enroll.

WIB-Seattle: Women's History Month Event Recap: Rockstar Women, March 25, 2019 Event Recap

In honor of Women's History Month, Women In Bio - Seattle hosted, “Rockstar Women,” on March 25, 2019. Our event featured 3 highly engaging panelists: Lisa Cohen, Senior Advisor at Uncommon; Beth Kolko, Co-Founder and CEO of Shift Labs; and Cathy Melfi, Vice President of Quality and Regulatory and Chief Regulatory Officer of Omeros. The lively conversation was moderated by Blythe Sather, Senior Director of T cell engineering at Lyell Immunopharma and former Seattle WIB Treasurer. We were proud to showcase these rockstars in the local life science scene.

Sophia Siu, WIB Seattle Chapter Vice Chair, introducing the panelists and sharing information about WIB-Seattle membership.

WIB-Southern California: Executive Presence: How to Own the Room and Own Your Voice!

You are smart. You work hard. Your resume is packed with accomplishments. You are ready to take your business or career to the next level. Strong executive presence can get you there. Executive presence is also an important factor in fundraising and investor presentations. A study by the Center for Talent Innovation suggests that executive presence accounts for 26 percent of what it takes to get ahead in today’s global marketplace.

Join us for an evening with Maya Hu-Chan, globally recognized leadership consultant, executive coach, speaker, and author. Maya Hu-Chan will share practical strategies for developing executive presence to fight unconscious bias, make your voice heard, and get what you want by showing up at your best. Maya’s ability to significantly advance the leadership effectiveness of executives has led to important and measurable results, not only for the organizations involved, but also for the individual.

WIB-Southern California: Women for Social Impact

This is your opportunity to be mesmerized by Peggy Callahan, an anti-slavery activist, and filmmaker, as she shares her stories of fighting modern-day slavery and decades reporting and producing films on poverty, the foster care system, the death penalty, farm-workers, racism, homelessness, and slavery, to name just a few. Peggy is a powerful, award-winning storyteller that has helped change laws and lives. She has worked on 5 continents and 15 countries through two international anti-slavery organizations that she co-founded; Voices4Freedom and Free the Slaves. Her impact has been astonishing, including over 15,000 people freed from slavery, 29 transitional schools in India that help entire villages free themselves from slavery, more than 200 traffickers and slaveholders arrested, 256 million people reached to raise public awareness, and has created the world’s largest video library on modern-day slavery, shared it for free with the world’s best storytellers so they could tell the story of slavery. Aside from her ongoing anti-slavery work, Peggy is currently producing a film inspired by the international bestseller, The Book of Joy with Nobel Peace Prize winners, Archbishop Desmond Tutu and His Holiness the Dalai Lama and launching a podcast with The 1440 Multiversity.

About Our Chapter

The Women In Bio – Texas chapter provides easy reach to the home of some of the most prominent academic research centers in the country, including the University of Texas at Austin, M.D. Anderson Cancer Center, The Texas Heart Institute, the Texas Biomedical Research Institute, the Texas A&M System, and the Baylor, Scott & White System of institutions. The many internationally recognized hospitals and medical research centers in Texas attract a highly skilled network of trained hospital
staffers, nurses, and doctors, as well as clinical trial organizations.

Our membership base includes academic and clinical researchers, sales professionals, venture capitalists, legal advisors, intellectual property advisors, technology transfer specialists, policy experts, clinical trials professionals, doctors, medical/science communicators, educators, students, and many other experts who support the health, pharmaceutical, and science industries. These and other qualities have nurtured the creation of a burgeoning biotech industry in the state, Texas having recently being dubbed the “Third Coast” of Biotechnology.

Learn more about our chapter here.

What is the Women’s Series:

The Women’s Series are joint events of the Belgian, French, Netherlands and German American Chambers of Commerce as well as the British American Business Council. Started in January 2014, the Women’s Series holds quarterly business events for professional women of the Atlanta international community. The goal of the Women's Series is to bring educational and stimulating content to our attendees, while also facilitating professional opportunities and networking among peers. We are proud to offer topics to help connect and develop the women of our communities.
