NATIONAL ANNOUNCEMENTS

A Letter from Women In Bio President, Rachel Kopper

Dear WIB Friends, It was fabulous to see so many of you at the BIO2019 International Conference!! The WIB presence was definitely felt -- and heard (at least, that's what BIO attendees said when walking across the Exhibit Floor during the WIB Speed Networking session Tuesday). We hosted well-attended events Monday, Tuesday, Wednesday, and Thursday... Click here to read Rachel’s letter in its entirety.

WIB-National: EWIB Executive Breakfast at BIO 2019, June 3, 2019, Event Recap

This year, EWIB hosted its second annual Executive Breakfast at the 2019 BIO Conference in Philadelphia. The event was kicked off by EWIB co-chair Jessica Swartz and Helen Torley, Halozyme CEO and chair of BIO's Workforce Development, Diversity and Inclusion Committee. Helen shared BIO's RightMixMatters.org initiative, designed to increase diversity in the C-Suite, on corporate boards, and in leadership positions, an effort squarely in line with EWIB's mission and goals. Following introductions, Teresa Matkovits, Chief Development Officer at Matinas BioPharma, discussed juggling rolls in the C-Suite and on multiple corporate boards, driving a lively conversation about leadership in life sciences and beyond. Join us next year for this vibrant, invite-only event!

WIB-National: BIO Convention BPI Panel Discussion 2019, June 6, 2019, Event Recap

Women In Bio (WIB) presented a panel of Boardroom Ready program graduates discussing career paths, ambitions and how to manage career curveballs at the BioProcess International Theater on Thursday, June 6th. The lively panel featured Ethel Rubin, Entrepreneur In Residence for Bio Health Innovations, Lori Lyons-Williams, Chief Commercial Officer, Dermira and Sofija Jovic founder and former CEO of Prophase and was moderated by WIB's President Emeritus, Cassidy Cantin. The panel discussed managing your career juxtaposed to life’s challenges and how to thrive despite those challenges. The panelist stressed the power of one’s network
and the ability to pivot one’s experiences to be more applicable for new opportunities. One does not know where the next opportunity will come from, but too often we limit ourselves by saying we “can’t” – women are often their worst critic and we can accomplish so much more if we just take a chance and try.

WIB-National: BIO Convention Roundup 2019

It was fabulous to see so many of you at the BIO2019 International Conference!! The WIB presence was definitely felt -- and heard (at least, that's what BIO attendees said when walking across the Exhibit Floor during the WIB Speed Networking session Tuesday). We hosted well-attended events Monday, Tuesday, Wednesday, and Thursday. Basically, it was a week of WIB!

Announcing New Leadership for Executive Women In Bio and Boardroom Ready

Women In Bio (WIB) is thrilled to announce the selection of new co-chairs for Executive Women In Bio (EWIB) and the Boardroom Ready program. Incoming co-chairs for EWIB are Shehnaaz Suliman, M.D., M.B.A., M.Phil., and Melanie Kleinschek, D.V.M., Ph.D., who are both members of the San Francisco chapter. EWIB also welcomes Kelly Huang from the Southern California chapter, who will co-chair the Boardroom Ready program with Elese Hanson, a founding leader who helped establish the program in 2016. Click here for the entire announcement.

Executive Women In Bio Celebrates the 30th Board Appointment for Boardroom Ready Program Alumnae

Executive Women In Bio (EWIB), a group of senior leaders committed to promoting, empowering and elevating executive women in biopharma and the life sciences operating within the national non-profit organization Women In Bio (WIB), is pleased to announce 30 board appointments for their Boardroom Ready Program Alumnae. Congratulations to Sharon Ayd, Ph.D., chief executive officer of Ayd BioPharma Consulting Group and 2016 Boardroom Ready alumna, on her appointment as independent director of Reglagene. Click here for more details!

BIO Conference Podcast: Helping the next generation of women to lead in biotechnology

Check out the BIO conference podcast: “Helping the next generation of women to lead in biotechnology” featuring Rachel Kopper (National President of Women in Bio), Lisa Iadicicco (WIB Executive Director), and Jessica Bosc (President Elect) here.
Young Women In Bio: Third Annual Spring into STEM Newsletter

Young Women in Bio (YWIB) has wrapped up another exciting Spring into STEM™ Festival in celebration of the spring season! In its third year, this festival of STEM-focused events allows young girls from elementary school through high school to explore the wide range of educational and career opportunities open to them in STEM. YWIB chapters across the U.S. and Montreal hosted a total 20 events from the first day of spring through May 17, 2019. Through the support of our generous sponsors and organizers, passionate schools and teachers, and energetic volunteers, girls participated in activities that included tours of companies, panel discussions, and major STEM Festivals. Click here to catch up on all the great things YWIB has been up to this school year!

WIB-National Webinar: "Leading With an Innovative Mindset " (June 27, 2019)

Many of today’s leadership problems are critical and time sensitive; they require quick and decisive actions. But at the same time, they are so complex and unprecedented that often leaders do not know how to act. There is a need to slow down, reflect, and approach the situation in an unconventional way - with an innovative mindset.

In this interactive and thought provoking session, Author and Global Leadership expert Maya Hu-Chan will explore:

- Global trends on today’s fast changing business landscape
- Innovative approaches to leadership
- Practical strategies to create an innovative climate for new approaches and solutions

Save the Date - EWIB Webinar: An Executive Woman's Guide to Career Advancement (July 26, 2019)

Becoming an executive is no easy task. Becoming a female executive is something else altogether. How can the ambitious woman excel, advance, and thrive in seemingly male-dominated industries with thousands of years of history working against her? Through her own inspiring journey from employee to powerful female executive, Robin Toft couples the wisdom she gleaned at the boardroom table as an executive with over a decade of experience in executive search as Founder and CEO of the award-winning Toft Group. No matter where you are on your executive journey, Robin Toft will move you to action and empower you as a trusted partner through every aspect of your career advancement. Robin will share the confidence, language, and tools to design and realize the career of your dreams and turn inspiration into action. Land the job, make vertical moves, and secure a seat at the boardroom table.

Robin Toft is an author and the founder and CEO of Toft Group Executive Search, where she combines a deep inside knowledge of the life science industry with a passion for building game-changing management teams. In her 10-plus years in the executive search industry, Robin has placed more than 500 executives at innovation-led companies in biotechnology.

WIB-Atlanta

Connect with us! Atlanta@womeninbio.org

On Thursday, May 30, WIB-Atlanta hosted our second career panel of 2019 in collaboration with Georgia Innovation Crescent. The evening's theme was "career transitions", and our team of experts readily shared their experiences and advice on managing transitions at every stage of your career. Professional headshots were available throughout the evening to attendees contemplating such transitions. Thank you to our moderator Matt Cheij, and our speakers Bree Becker, Jane Morgan, Kara Morrison, and Margaret Kenny Offerman. There were many lively and thoughtful conversations!
WIB-Capital Region: Financial Strategies for Professional Transitions and Career Elevation

What is "negotiation" and why is it important?

Come join WIB-Capital Region to learn about negotiation of salary and beyond, and what it can mean for your career progression. Our distinguished speakers will share their insights into techniques you can employ to research your value and identify what types of compensation are negotiable, as well as strategies and tactics for applying this information for maximum benefit.

You will come away empowered, with solid tools at your disposal for your next compensation negotiation.

WIB-Capital Region: Women In Bio Roundtable

Share ideas with other like-minded individuals about the professional and social events you would like to see in the Frederick area. What does a Frederick region Women In Bio network mean to you? What kinds of topics and events interest you? Come to the Women In Bio Roundtable to find out more!
WIB-Capital Region: Enroll and Re-Enroll in MAPS Mentoring Groups

Dear Capital Region Chapter of Women In Bio,

We are so excited to keep you updated about our annual revitalization of the MAPS program. We are confident that this program will continue to provide each of us with an opportunity to build new, meaningful relationships. More information on MAPS Groups is attached here.

This year we are keeping the MAPS Enrollment Survey open until COB 21 June so hurry up and become a MAPS member today.

Please complete the survey even if you are currently in a MAPS group and wish to stay in that group!

Sincerely,
Capital Region MAPS Chairs
Ula and Rama

WIB-Chicago: Special Event: Concert in the Park Networking Event

Back by popular demand, we are happy to invite you to our special concert in the park networking event at the Jay Pritzker Pavilion. Bring your casual picnic wear to catch up with WIB members, learn more about us or simply build your network in the life sciences as we enjoy a Chicago summer night and listen to The Flight of the Bumblebee and other pieces.

Learn more about the Grant Park Music Festival here.

WIB-Chicago: Engage in Chicago’s vibrant life science community – call for volunteers!

Do you…
…want to get more engaged with women and your local life science community?
…want to build your professional network and make friends along the way?
…want to help build and shape Women In Bio-Chicago?
…want to add some rewarding volunteer activity to your CV?

Then come and join us! We are looking for volunteers to help out in various committees. Just to name a few, Special Events and Program are looking for help with organizing events, Membership needs some help at the events itself, Communication wants people that engage in outreach and our MAPS committee is eager to kick-off the second round of our mentorship program and needs a helping hand with that.

If anything of that sounds interesting to you, you have a general interest in volunteering for WIB or even if you have other ideas about how you would like to contribute, reach out to us! Email Rike (our communication chair) for further information.

We can do it alone, but together we can do it better!
WIB-Greater Boston: Understanding What It Means to Be Boardroom Ready

These accomplished women will speak from their experience about how they prepared for, identified, and positioned themselves to secure a board seat and lead in the boardroom. The panel will discuss strategies and insights for determining right opportunities, approaches for successfully obtaining a position on a board and bring seasoned advice on how to contribute to the success of an organization from a board role.

WIB-Metro New York

WIB-Metro New York: Inspirational Career Transitions to Industry, May 9, 2019, Event Recap

The Metro New York Women In Bio chapter hosted an amazing panel discussion last month, focused on inspirational career transitions to industry. The very frank and humorous discussion about winding career paths and work-life balance was very well received. The key takeaway was there are several avenues to be able to have a
flexible and fulfilling career that suits your life – both personally and professionally. Extensive networking followed the panel presentation. The esteemed panelists included Dr. Saya Nagori, MD (Medical Director of SimpleHealth.com), Rania Nasis, MD, MBA (COO of Element3 Health), Andrea L. Nicholas, JD, PhD (Partner at Skadden, Arps, Slate, Meagher & Flom LLP), and Alice Zheng, MD, MPH, MBA (Engagement Manager at McKinsey & Company).

WIB-Philadelphia Metro: Center City MAPS Peer-to-Peer Mentoring Meet-Up

Join your peers for a cup of coffee and a chance to provide and receive advice and support about issues that women in the life sciences face. Our inaugural mentoring meet-ups will focus on overcoming biases that women experience as they strive to become leaders within their organizations or communities.

WIB-Pittsburgh: Career Opportunities in Clinical Trials – Exploring Cook MyoSite

Are you considering a career in the world of clinical trials or cellular therapy development? Join Women In Bio for a unique opportunity to discover Cook MyoSite, a local biotech company with a portfolio of cellular therapies for personalized regenerative medicine! Cook MyoSite will guide us through the process of bringing a new cellular therapy to market, highlighting the career opportunities at each step along the way. Attendees will receive a guided tour through the commercial manufacturing facility and research laboratories to see where their Autologous Muscle Derived Cell (AMDC) technology and Laboratory Research Products are produced. Following the tour, you will have the opportunity to speak with department representatives about open positions across the company, including those in research, regulatory affairs, process engineering, management, and more. Please see the Cook MyoSite Careers Portal for the most up to date career opportunities. Bring your resume if you are interested in any open positions! Light bites and drinks will be provided.

WIB members may bring one guest at the member rate. If you are not a member, we would still love to have you! Please email Pittsburgh@WomenInBio.org to connect with a WIB member and register for this great event!

WIB-Pittsburgh P.O.W.E.R. 2019 - Save the Date

Pittsburgh’s Outstanding Women Entrepreneurs Rally (P.O.W.E.R) is an annual celebration of the contribution local women are making to life sciences and healthcare. As our sixth annual event, P.O.W.E.R. 2019 will highlight the impact of big data in healthcare innovations. Click here for more information.

WIB-RTP: Celebrating International Women: Panel Discussion and Networking Event

As a girl, a brave WIB member dreamt of going to America one day to become a professional and make an impact globally. Why America? Freedom and opportunity for women. When she first arrived in America, she faced many challenges: language barriers, visa issues, and cultural stereotypes. She also found many rewarding opportunities open to women. But there was another side to America: glass ceilings, old boys’ clubs, and discrimination. She ignored these things, worked hard, enjoyed open discussions, expressed herself freely, and made friends through work in America. Some of her bosses did not know how to deal with international women and were unsupportive, but she also met great mentors, supervisors, and career coaches. She found being honest and getting support from people are not weaknesses but rather strengths in America.

It is time to share experiences and develop networks to make RTP a more welcoming place for international women. Come hear WIB members Jaleh Abedini and Conchita Jimenez-Gonzalez speak about their journeys of coming to America and establishing their careers. Advocates Dana Lebo and Alison Church will provide resources and there will be a special networking opportunity to celebrate our international WIB members!

WIB-RTP: Young Women In Bio Tour of Duke University's Regenerative Medicine Labs

The Regeneration Next Initiative at Duke University focuses on bringing together researchers that work on regeneration research on Duke's campus. From basic science to engineering and the clinic, the collaborations within the initiative look to move regeneration research forward through diverse approaches. During this event, you will be introduced to the different model organisms used within the labs to explore the topic of regeneration. There will be brief walks in between buildings to visit labs that use C.elegans, Drosophila, Zebrafish, Mice, and human cells in their work as model organisms. The labs will show off their work and discuss how model organisms can be used to gain insight into disease and biological functions.

WIB-San Francisco Bay Area: New Innovations and Applications for Microbiomes, May 21, 2019, Event Recap

On May 21, 2019, WIB-San Francisco Bay Area hosted a much-anticipated panel discussion about the current state of microbiome research and recent innovations and applications at Nektar Therapeutics. This event was attended by more than 40 guests who enjoyed an opportunity to network and listen to a moderator-led discussion with panelists who shared the exciting and challenging aspects of working with the microbiome. Our distinguished moderator and panelists included Sheila Adams-Sapper from Resilient Biotics, Elisabeth Bik from Habers-Bik LLC, Luisa Chan from Thermo Fisher, Roxana Hickey from Phylagen and Vanessa Ridaura from Verily. The panel discussion was followed by a stimulating Q & A on the microbiome and its applications.

WIB-Seattle: Building Strategic Partnerships

Join WIB-Seattle to learn what strategic partnerships are and what they can do for your organization. Our distinguished speakers will share their insights into how we can build strong, strategic alliances within our own organization and with other organizations. These partnerships can be vital to the success of your personal and organizational goals and initiatives.

Strategic partnerships can have a broad impact across our careers and communities. These relationships have the potential to align and integrate different perspectives to solve problems, create alliances among organizations that might not usually work together, and keep the community’s approach to issues consistent.

OTHER INTERESTS

BIO World Congress on Industrial Biotechnology (WCIB) First All-Women Panel

The first all-women panel during the BIO World Congress on Industrial Biotechnology (WCIB) is scheduled for Wednesday, July 10 at 2:45 PM in the Breakout Session called Ingredients for a Healthier Tomorrow – listed as “Advancements in technologies to produce algae, yeast, cellulosic and other feedstocks more efficiently and profitably for the production of food, feed, and nutraceuticals.”

Panel Members:

-- Taraka Dale, scientist, team leader, and principal investigator in the Bioscience Division at Los Alamos National Laboratory and head of a new consortium of institutions working to increase ethanol production and its use in by-products, including ingredients from improved microalgae strains that Taraka’s team has developed.

-- Marilyn Bruno, CEO Aequor, Inc., describing how Aequor chemicals boost algae and yeast biomass yields by >40% and >30% respectively, reducing the costs and improving the margins of ethanol production and the many by-products in addition to biofuels: sustainable food, feed, and ingredients, plastics, etc.

-- Adrienne McKee, Director, Platform Partnerships at Checkerspot, a company enabling ultra-high performance consumer products. Checkerspot is innovating new materials with improved physical properties based on advances and tools for high throughput and predictive molecular biology and chemistry.

-- Amanda Barry at the Los Alamos National Lab, has been working with customers to improve the productivity of Nannochloropsis algae for nutraceuticals, Omega 3, food and feed, and supporting their campaigns for legislators to include algae as an “agricultural crop” eligible for Farm Bill benefits. What is the Women’s Series:

The Women's Series are joint events of the Belgian, French, Netherlands and German American Chambers of Commerce as well as the British American Business Council. Started in January 2014, the Women's Series holds quarterly business events for professional women of the Atlanta international community. The goal of the Women's Series is to bring educational and stimulating content to our attendees, while also facilitating professional opportunities and networking among peers. We are proud to offer topics to help connect and develop the women of our communities.
