NATIONAL ANNOUNCEMENTS

WIB-National EWIB-Webinar: “Artificial Intelligence and Telehealth to Improve Patient Outcomes”
This presentation will discuss how technology and the legal framework underlying it are shifting to support telehealth services. Other digital health tools and tasks assisted by AI technology and expanded broadband deployment will also be addressed. The legal and technological obstacles facing these developments and how to overcome them will be touched on, as well. Finally, examples of how AI and telehealth operations deliver improved patient outcomes will be provided.

Guest Speaker: Chérie R. Kiser, managing partner of the Washington, D.C. office of Cahill Gordon & Reindel LLP. For more information, or to register, click here.

Executive Women In Bio (EWIB) Boardroom Ready Platform: Accepting Applicants
Executive Women In Bio's Boardroom Ready program was honored to share the launch of the executive profile directory at The Board Meeting West. Check out this write up in Life Science Leader for more info! Are you a female executive who's ready to serve on corporate boards for life science companies? Executive Women In Bio's Boardroom Ready network can help - apply for the 2019 program today! #BoardroomReady #WomenInBio

Women In Bio Presents a Celebration of Women's History Month - March 2019: Together we build. Together we lead. Together we inspire!
Women In Bio (WIB) is excited to celebrate Women's History Month (WHM) in March by hosting engaging events that will truly inspire. To honor and recognize the contributions generations of women have made to events in history and to society, WIB’s chapters will hold events in cities across North America. These events will include keynote addresses and panel discussions from women leaders in the life sciences and supporting industries.

Our WHM theme for this year is “Together we build. Together we lead. Together we inspire.” This theme reflects WIB’s unwavering commitment to enabling, empowering, and inspiring women to reach the highest levels of leadership, and - more importantly - to fulfill their own career aspirations.

Stay tuned and plan to join us as at our chapter events in honor of Women's History Month!

WIB-Atlanta: YWIB An Exhibitor In Young Women In STEM Career Fair
The Young Women in STEM Career Fair and Mentoring program is designed to expose Jewish female high school students (and 8th graders) to a wide variety of educational and career options in STEM, connect the girls with women in STEM fields, and help the girls connect with other girls that have interests in STEM.

The event will include a keynote address. There will be booths run by women in various STEM careers and professional organizations, and 30-minute long mini-sessions with interactive demonstrations. There will also be time at the event for interested girls to mingle with potential mentors.

YWIB will have a booth at the Career Fair. This event is free to attend. We look forward to seeing you there!

For more details, click here.

Around 30 people came out to celebrate the start of 2019 with Women in Bio-Atlanta at Vino Venue. A mix of new faces and long-time WIB members came together to sample a fine selection of wines and enjoy complimentary appetizers. The staff at Vino Venue provided excellent service and everyone who came made new professional connections. We hope the rest of the year will also be this successful!
WIB-Capital Region: YWIB an Exhibitor in Family Science Days at 2019 AAAS Annual Meeting
AAAS Family Science Days is a free public science event that offers an array of hands-on family and child-friendly activities. It is held during the American Association for the Advancement of Science (AAAS) Annual Meeting, the largest general scientific conference in the world. The 2019 AAAS Family Science Days event will be held Saturday, February 16, and Sunday, February 17, from 11:00 a.m. to 4:00 p.m. at the Marriott Wardman Park in Washington, DC (location changes each year). Family Science Days feature interactive booths appropriate for K-12 youths and their families, highlighting diverse areas of science, as well as a live stage show and the chance to talk with scientists.

Family Science Days demonstrates the AAAS commitment to promoting public engagement with science, a central part of its mission to advance science and serve society. It provides an opportunity for local science organizations to gather and connect with their communities and gives the scientists attending the meeting a chance to see public engagement in action. The event is advertised to families via local media, schools, community organizations, and participating institutions. Learn More

WIB-Capital Region: Artificial Intelligence-Based Insights from Heart Rate to Respiration, Voice and Brain Data
Find out about how the nature of artificial intelligence can influence our lives. Topics covered will include: using live wearables to show heart rate and respiration in real-time, software analytics for human voices, brain-related data, social network analysis and the real-world, driving, and more. This Baltimore Meetup is free for members and students, and members may bring up to two guests at the member price (free). If you’re new to WIB and interested in checking it out before becoming a member, get in touch via CapitalRegion@womeninbio.org. Speakers: Jean M Vettel and Debra Cancro. Learn more and register for this event

WIB-Capital Region: Winter Warm-Up Mixer
Let’s get together and thaw out a bit from this winter cold! Join Women In Bio - Capital Region and Healthcare Businesswomen’s Association (HBA) Montgomery Corridor at our first joint networking event of 2019. Come out and make new connections, or meet up with familiar faces, while enjoying an evening of delicious nibbles and invigorating beverages in a relaxed, casual setting. Each registration includes one drink ticket and light appetizers. The more the merrier, so be sure to register and spread the word! NOTE: HBA members can register through HBA’s website in order to receive HBA member’s pricing. Learn more and register for this event

WIB-Capital Region: YWIB Emergent Biosolutions Inc. Lab Tours and Career Panel
YWIB-Capital Region, in collaboration with Emergent Biosolutions, presents the “Emergent Biosolutions Inc. Lab Tours and Career Panel”. Attendees will learn first-hand about Emergent Biosolutions and their mission, attend a tour of their facility followed by a hands-on activity. Students will also participate in a career panel hosted by the scientists at Emergent Biosolutions. YWIB Age Group: High school students ages 14-18. Learn more and register for this event

WIB-Capital Region Member Spotlight: Amritha Jaishankar
Amritha Jaishankar is currently the Associate Director of the Maryland Stem Cell Research Fund at TEDCO. In this role, she is focused on accelerating cures using human stem cell-based technologies and works with leading stem cell scientists, companies, and other key stakeholders to deliver this mission. Amritha is responsible for scientific management and oversight of MSCRF active portfolio totaling over $20 million. She is committed to identifying and developing partnerships to build a strong, collaborative stem cell community in Maryland. Amritha has worked and studied in three different countries, has over a decade of experience in the stem cell field and is currently using her expertise to help advance the regenerative medicine field by helping scientists solve problems, collaborate, and bring their discoveries to the market to deliver cures. She is dedicated to advancing science and encouraging women in the biology fields.

Tell us about your background (both educational and professional).
“I grew up in India where I did my early schooling and by the time I was in 10th grade I had already chosen to major in biology. During my undergraduate work, I became very interested in genetic diseases and gene therapy. To gain hands-on research skills in this field, I moved to England to pursue a Masters in Molecular Genetics at the University of Leicester. It was probably one of the hardest and best years of my life. I graduated at the top of my class and was encouraged to pursue a Ph.D. in Genetics, which brought me to America. My work here was on the molecular characterization of pluripotency and differentiation of various human stem cells -embryonic, mesenchymal and neural stem cells. While I was in graduate school, iPS cells were first reported and I knew then that I wanted to combine my knowledge of stem cell biology and genetics to model disease and advance patient stratification. This led me to the lab of one of the pioneers of cellular neurobiology and I started my postdoctoral work in his lab at NIH. I continued my research at a non-profit institute that I helped build at the Johns Hopkins School of Medicine, where in partnership with AstraZeneca, I used stem cells to study neurodevelopmental and psychiatric disease- schizophrenia in particular. Without a doubt, I was passionate about accelerating the use of stem cells/cell therapy to solve an unmet medical need and have a positive impact on patients’ lives but while my scientific training had left me with an unparalleled skill set and a great pedigree (you only realize how sought after you are if you leave your lab, network and go to job fairs- I was amazed by the interest and offers), I knew that I needed to step away from the bench and pursue a career that suited my personality, values and one that allowed me to utilize all my strengths. I was

evaluating various options when an opportunity to work with the MD Stem Cell Research Fund (MSCRF) at TEDCO came up. Three years in, I serve as the Associate Director of MSCRF and am fortunate to be able to make an impact and help accelerate cures in a field I’m passionate about.* For the entire Spotlight, click here.

**WIB-Chicago: Leading with Equity: The Road To Improved Health Outcomes**

Attendees will learn about health disparities, health equity, social determinants of health, and the role they play in advancing population health. This panel of experts will explore strategies, opportunities, and resources to ensure that everyone has a fair and just opportunity to be healthier. The discussion will also focus on how we can remove barriers across the care continuum to move the needle on health equity.

**Speakers:**
- Jenne Johns - Director Quality Improvement and Health Equity, Blue Cross and Blue Shield of Illinois
- Barbara Otto - CEO, Smart Policy Works
- Fornessa T. Randal, MCRP - Executive Director, Center for Asian Health Equity | Asian Health Coalition
- Rebecca Levin, MPH - Executive Director of Strengthening Chicago's Youth (SCY)

**Moderator:**
- Erika Callahan - Manager, Executive Communications, Blue Cross Blue Shield of Illinois

**Sponsor:**

**WIB-Chicago: Overcoming Gender Bias in the Workplace**

Join Andie Kramer for an interactive conversation on overcoming gender bias in the workplace. Co-author of the popular book “Breaking Through Bias: Communication Techniques for Women to Succeed at Work” and the forthcoming book “It’s Not You, It’s the Workplace: Women’s Conflict at Work and the Bias that Built It”, Andie will discuss how stereotypes and the biases that flow from them prevent women from advancing as far and as fast in their careers as men. She will provide specific insights and techniques women can use to avoid or overcome often subtle and unconscious biases. Andie will discuss real-life scenarios involving gender-biased interactions and ways to overcome biased workplace situations.

"Breaking Through Bias: Communication Techniques for Women to Succeed at Work" will be on sale for $20.00 plus tax ($22.05). Credit cards accepted. Andie will be available for a book signing.

**WIB-Chicago: Engage in Chicago’s vibrant life science community – call for volunteers!**

Do you...
- want to get more engaged with women and your local life science community?
- want to build your professional network and make friends along the way?
- want to help build and shape Women In Bio-Chicago?
- want to add some rewarding volunteer activity to your CV?

Then come and join us! We are looking for volunteers to help out in various committees. Just to name a few, Special Events and Program are looking for help with organizing events, Membership needs some help at the events itself, Communication wants people that engage in outreach and our MAPS committee is eager to kick-off the second round of our mentorship program and needs a helping hand with that.

If anything of that sounds interesting to you, you have a general interest in volunteering for WIB or even if you have other ideas about how you would like to contribute, reach out to us! Email Rike (our communication chair) for further information.

**WIB-Boston: A Conversation with Daphne Zohar on Lessons in Leadership**

This event will provide an opportunity to interact with Daphne and discuss her views on leadership. During the session, Daphne will explain how her experience as a founder and CEO of a growing company helped to strengthen and develop her leadership skills. She will speak to and answer questions about her priorities as CEO, including what makes for a
successful and sustainable organization and culture, how to cultivate team engagement and how to utilize leaders on your team at different levels. Daphne will also address how certain behaviors can get in the way of effective leadership as well as the role gender plays in influencing leadership success.

WIB-Boston: Members Invited to Join the Mentorship, Advisors, Peers, and Sponsorship (MAPS) Program

The MAPS Mentoring Program provides mentorship for Women In Bio members in small-group settings. Mentorship, Advisors, Peers, and Sponsorship (MAPS) builds strong connectivity among team members and fosters opportunities for personal and professional GROWTH through sharing of knowledge and experiences and leveraging the diverse skills and perspectives.

Each mentoring group is made up of four mentees with at least two to three years of professional experience within the biotech/life sciences industry and two women with accomplished careers, as mentors. Groups will be assigned based on information provided in the applications available below, including professional goals, seniority, and location preferences. The program will run between April and November 2019.

The mentoring program is integrated with WIB Greater Boston’s Leadership Ready Program, a seminar series that focuses on career development and leadership topics. Women who attend a designated number of sessions and mentoring meetings earn a Leadership Ready certification from WIB.

The deadline for application submission is March 8, 2019. The MAPS kickoff event to introduce the groups and discuss best practices will be scheduled in April (Date and Location TBD).

For more information or to register, click here.

WIB-Greater Boston kicked off 2019 in January with a stellar event featuring a panel of accomplished executives hosted by the Novartis Institute of Biomedical Research (NIBR) in Cambridge. The evening’s theme, “Lift as you Climb: Women Supporting Women for the Success of Industry,” focused on the merits of women supporting each other at the individual level, organizational level and at the level of the larger ecosystem. Our esteemed panelists were:

• Revathi Rammohan, CFO, Novartis/NIBR
• Karin Briner, VP & Global Head of Chemistry, Novartis/NIBR
• Aoife Brennan, President, CEO & CMO, Synlogic
• Donna Higgins, CEO, The Higgins Group, Inc.

WIB-Greater Montreal

Connect with us! Montreal@WomenInBio.org

WIB-Greater Montreal: "Inferior: How Science Got Women Wrong...”
On January 16, 2019, WIB—Greater Montreal hosted a fun and fascinating discussion on "Inferior: How Science Got Women Wrong – and the New Research That’s Rewriting the Story" from Angela Saini. From intelligence to emotion, for centuries science has told us that men and women are fundamentally different. But this was not the whole story. Shedding light on controversial research and investigating the ferocious gender wars in biology, psychology, and anthropology, in her book, Angela Saini took readers on an eye-opening journey to uncover how women are being rediscovered. She explored what these revelations meant for us as individuals and as a society, revealing an alternative view of science in which women are included, rather than excluded. Participants brought a copy of the book and asked questions to kick-start the discussion and moderate the group. Drinks and light fare were provided.

**WIB-Philadelphia Call for Volunteers**

WIB-Philadelphia Metro is looking for volunteers in the following areas:

- **Membership Committee** – Involved in planning semi-annual membership drives and social media outreach to new members
- **Communications Committee** – Social media posting, email correspondence with chapter partners to generate awareness
- **Sponsorship Committee** – Outreach to existing sponsors to realize full benefits of investment, building relationships with members and network to secure new sponsorships
- **Program Committee** – Involved with identifying, coordinating, and implementing programs and events. Work with presenters, venue coordinators, and caterers
- **Young Women In Bio** – Supporting planning and organization of YWIB events (school reach out, promoting YWIB mission with companies, event prep etc.)
- **Chapter Secretary** – Manage monthly leadership call logistics (distribute agendas, record & distribute meeting minutes), Manage actions from monthly calls, Send calendar invites for chapter events, Manage monthly national committee minutes

Please email Philadelphiametro@womeninbio.org if you have interest in joining either committee.

**WIB Pittsburgh: Painting with a Twist: Sips of Art and Fun with Women In Bio**

Join Women In Bio for a colorful event at Painting with a Twist! Enjoy an evening getting to know fellow WIB members during a special painting session complete with step-by-step guidance from local artists and go home with a unique painting created by you. Come improve or show off your painting skills in a casual and relaxed atmosphere and enjoy light appetizers and drinks. Painting materials, instructions, food, and drink are included in your registration. Due to necessary preparations, no walk-ins will be accepted and registration will close on February 18, 2019. Painting begins promptly at 6:00 p.m. Learn more and register for this event
WIB-Pittsburgh: Women Who Inspire – A Career Panel with Leading Pittsburgh Women

Successful women abound in the sciences. Women In Bio-Pittsburgh is excited to celebrate Women's History Month in March by hearing from distinguished women across a variety of science professions - from academia to industry, to law. Join these inspiring women to hear about their career journeys - their successes and their challenges - and how they lead and inspire others to be successful in their careers. In addition to a moderated panel discussion, speakers will be available during a networking session with light food and refreshments. Bring your friends and colleagues and join us for an inspiring evening. Learn more and register for this event.

On January 29, 2019, WIB-Pittsburgh, in coordination with the Mentorship, Advisors, Peers, Sponsorship (MAPS) Committee, presented “Speed Dating, Interview Edition: Practice Interview Skills for a Successful Job Search”. Executive Recruiter and Career Coach, Kerry Boehner of KOB Solutions, Inc. was the evening’s featured speaker. In her talk, “How Serving Others Leads to Success – in Interviews, Careers, and Life”, Kerry shared her experience working with a candidate who successfully made the transition from academia to industry. She also discussed steps toward success in an interview.

WIB-RTP: How to Proactively Manage Your Career

WIB-RTP is hosting an event focusing on how to best manage your career at every stage. The event will be led by two women, who will provide best practice principles and techniques from starting a first-time job search to how to revamp your resume for a senior career transition. Rachel Wile is Senior Recruitment Consultant at Barrington James, who will be speaking about how to utilize and effectively work with a recruiter. Heidi Giusto is head of Career Path Writing Solutions and will provide professional writing tips for your resume. Additionally, both women will assist in a dynamic resume-swap activity and will provide feedback on questions. Don’t forget to bring your resume! Learn more and register for this event.

WIB-San Francisco: MAPS Recruitment Networking Event in the South Bay

Have you been interested in learning more about our mentorship opportunities or a way to give back to our local community? Our MAPS programs strive to bring together people in various stages of their career, who are on different paths, and with a range of backgrounds in a professional yet social atmosphere. We offer both 1:1 mentoring and 6 regional peer groups across the Bay Area!

Join us for an evening of networking and to sign up to participate in your local group. Starting in 2019, all of our peer groups will be open to new members on a bi-annual basis (February and August) so come meet some of our peer group members and leaders and get signed up! We are also seeking mid to senior career level women to volunteer to be mentors for our 1:1 programming which runs on the same bi-annual cadence. Learn more and register for this event.

WIB-San Francisco: Biotech Entrepreneurship with YWIB, hosted by JLABS (March 14, 2019)

Have you ever wondered what a biotechnology company startup pitch sounds like? How do brand-new companies tell their stories, communicate their science, and raise capital? Please join Young Women In Bio for a special event hosted by Johnson and Johnson Innovation at JLABS, where you’ll get the opportunity to sit in the investor’s seat to listen to pitches from five phenomenal female biotech startup company CEOs. Industry mentors will work with you in small groups to discuss and evaluate each pitch presentation, YOU decide which companies you’d want to invest in, and we’ll wrap up with a panel discussion with the founders about science entrepreneurship. Dinner will be provided.

About Our Chapter
The Women In Bio – Texas chapter provides easy reach to the home of some of the most prominent academic research centers in the country, including the University of Texas at Austin, M.D. Anderson Cancer Center, The Texas Heart Institute, the Texas Biomedical Research Institute, the Texas A&M System, and the Baylor, Scott & White System of institutions. The many internationally recognized hospitals and medical research centers in Texas attract a highly skilled network of trained hospital staffers, nurses, and doctors, as well as clinical trial organizations.
Our membership base includes academic and clinical researchers, sales professionals, venture capitalists, legal advisors, intellectual property advisors, technology transfer specialists, policy experts, clinical trials professionals, doctors, medical/science communicators, educators, students, and many other experts who support the health, pharmaceutical, and science industries. These and other qualities have nurtured the creation of a burgeoning biotech industry in the state, Texas having recently being dubbed the “Third Coast” of Biotechnology. Learn more about our chapter.

OTHER INTERESTS
What is the Women’s Series:
The Women’s Series are joint events of the Belgian, French, Netherlands and German American Chambers of Commerce as well as the British American Business Council. Started in January 2014, the Women’s Series holds quarterly business events for professional women of the Atlanta international community. The goal of the Women’s Series is to bring educational and stimulating content to our attendees, while also facilitating professional opportunities and networking among peers. We are proud to offer topics to help connect and develop the women of our communities.
