**WIB-National Partner Spotlight: Women’s Health Innovation Coalition**

**Women’s Health Innovation Coalition** is a coalition of organizations advocating and promoting greater attention, research, and investment in diseases, conditions, and indications that exclusively or predominantly impact women. Understanding that women are biologically different than their male counterparts has led to the identification of gaps in women’s health outcomes. This has created new opportunities to fill these gaps through sourcing solutions from innovators. Women’s Health Innovation Coalition has made it a priority to prove that women’s health is not a niche market and is driving initiative to promote greater gender-relevant data transparency to spur innovation and better health outcomes for all.

**Women’s Health Innovation Forum Series: Cognitive & Brain Health, June 30, 2021**

Women’s Health Innovation Coalition, in partnership with Springboard Enterprises and Accenture, presents the 2021 Women’s Health Innovation Forum. The Women's Health Innovation Forum is a series of discussion/presentation sessions highlighting opportunities for investment in research and innovation in the field of women's health. These events will shine a light on innovative solutions that address unmet needs in diseases, conditions, and indications that solely, predominantly, or differently impact the health of women. Learn more about the Forum Series and future events [here](#).

**WIB-National Seeks Membership Co-Vice Chair and Communications Member Leaders (Apply by June 27)**

**Membership Co-Vice Chair**

The National Membership Co-Vice Chair works closely with the National Membership Chair to develop long-term strategies to increase overall WIB membership numbers, increase member retention, and diversify the demographics of WIB members. Additionally, the Co-Vice Chair works with the Chair of this committee to enhance the networking and educational value of WIB membership.
Communications Member Leaders

Help elevate Women In Bio's voice and impact in the life sciences! We are looking for volunteer leaders to help ensure the WIB message is seen through enhanced communication methods including but not limited to the WIB website, video content, social media, and traditional media. As part of WIB's strategic plan, we'd also like to help improve internal communication across chapters.

From Ideation to Creation: The Path of an Academic Pharma Innovation  
(Presented by Johnson & Johnson Innovation), June 8, 2021

Some of the most innovative and life changing ideas in healthcare come from inside the walls of academic medical institutions. Scientists, researchers, physicians, nurses and even administrative staff on the front lines see the daily challenges in medicine and struggles of their patients. However, taking an idea forward within an institution to create a company outside its walls can be even more challenging than the normal entrepreneurial path. Experts in the space will share their expertise on how to take an innovation from ideation to creation.

Click here for more information or to register.

We encourage founders and funders to find us on our dedicated Entrepreneur Center LinkedIn page for timely notices on investor partnering conferences, specific events, and more!

Also, be sure to check out our education and resources page.
