ENGAGE
WIB is an organization of professionals committed to promoting careers, leadership, and entrepreneurship of women in the life sciences and supporting industries. We strive for diversity and inclusion in every step of the life sciences journey. WIB offers continuous support and engagement at all stages of your career development.

EDUCATE
Our comprehensive approach allows members to lift up and inspire women during all phases of their life sciences journey. Women In Bio supports our members with continuity and enthusiasm. We have 13 chapters in North America that offer smart programming, professional networking, and mentoring to over 20,000 people annually.

EMPOWER
Whether you are just beginning your STEM education or your career, looking to advance your leadership role including board positions, or are interested in mentoring opportunities, WIB is there for you each step of the way.

Please join us in our mission to increase diversity and expand opportunities for women in the life sciences! Sponsorship, partnership, and membership are great ways to show your support for WIB nationally and locally.

WIB | Our Membership
Our membership and advocates include a network of professionals from across the continent and across disciplines. Over 20,000 strong, we link women to resources from the best life sciences companies and institutions in the world. WIB facilitates connections with investors, attorneys, researchers, and other executives such as finance, marketing, human resources, and communications.

WIB | Be a Part of the Movement
WIB annual membership is an incredible value at $95 per year. (That’s only $7.91 a month!) Become a part of the movement, join now!

**WIB | Our Outreach**

**Young Women In Bio (YWIB)**
This inspiring WIB program creates programs and events geared towards middle and high school girls, encouraging them to consider the life sciences as a career choice. The events ignite girls’ curiosity in biotechnology, while nurturing a business and entrepreneurial spirit.

**Executive Women In Bio (EWIB)**
EWIB strives to be a foundational resource for women in executive roles; empowering them to be the best leaders and influencers they can be. We champion for greater diversity by substantially bolstering the presence of women in the C-suites and boardrooms of life science companies.

**WIB | Our Programming**

Each chapter hosts 10 events annually, providing a mix of professional and educational events with dynamic panelists. We host membership meet and greets, national webinars, and a mix of networking and social events. WIB helps to build lasting relationships and expanded networks!

**WIB | Highlights**
- WIB Professional Development & Educational Series
- Women’s History Month Celebration
- Spring Into STEM Festival
- National Webinars
- Women In Bio Scholarship Opportunities
- National Participation in Industry Events & Conferences

**WIB | Member Benefits**
- WIB professional development programs, including MAPS and Boardroom Ready
- Access to influential women entrepreneurs and bioscience industry leaders nationally
- Inside track on issues that affect women in bioscience-related careers
- Far-reaching networking and relationship building
- Eligibility for WIB scholarships to offer financial assistance to educational opportunities

- Free access to the WIB National webinar series
- Ability to upload resume and search job opportunities on the WIB Career Center
- Opportunities to develop leadership skills that may not be available in your current endeavors
- Knowing that you are making a difference in the lives of women and young girls

**WIB | Our Mission**

WIB is a multifaceted organization of professionals committed to promoting the careers, leadership, and entrepreneurship of women in the life sciences. Our 13 chapters across North America offer professional educational programs, peer to peer learning, mentoring, and networking opportunities. Our goal is to connect all women in life sciences: academics, entrepreneurs and those in supporting industries. We are the only organization for women that integrates all career levels and all sectors of life sciences.
