

# HELP KEEP THIS PHARMACY OPEN & REDUCE DRUG COSTS

**Save Money:** Similar regulations on Pharmacy Benefit Managers (PBM) saved our state's Medicaid \$157 million annually. It's time to extend these benefits to everyone in Washington!

**Health Over Profits:** Many PBMs prioritize investor profits, leading to higher medication costs. This bill aims to shift the focus to patient health and more affordable drugs.

**Protect Local Pharmacies:** Local pharmacies are crucial for community health. SB 5123 aims to curb the PBMs' practices that harm businesses and lead to closures.

**Freedom of Choice:** You deserve the right to choose where to get your medications. PBMs actively block access to community pharmacies. This bill ensures that you have a choice and provides support for issues with mail-order medications.

## Support SB 5213

**Gives the Office of the Insurance Commissioner the authority to regulate PBMs and their practices**

- Reduces Medication Costs
- Keeps Community Pharmacies Open
- Protects Your Right to Choose

**Contact your representatives today and support SB 5213!**

*Together, we can protect patient choice, keep pharmacies open, and lower healthcare costs!*
